

Intersec Joins CCA

Paris— February 16th, 2017 –Intersec today announced that it has joined Competitive Carriers Association (CCA) as a new associate member. Intersec is a leading fast data software provider, designing platforms that help companies consolidate data from heterogeneous network equipment and IT and leverage the information to make more informed business decisions.

“I am delighted to welcome Intersec to CCA,” said Steven K. Berry, President & CEO of CCA. “Adding Intersec to our dynamic and diverse membership furthers our goal of maintaining a prosperous competitive mobile ecosystem. Unique service offerings like the Intersec platform will allow carrier and associate members alike to leverage their data and develop powerful use cases in the field of Customer Experience, location-based services or IoT.”

In a statement, Intersec CMO Laurent Michel said, “CCA helps competitive carriers grow and thrive in the wireless industry. Joining CCA allows Intersec to strengthen our commitment to support the operators to reach their objectives and stay ahead of the stream. This is not only about providing advanced technology, it is also about sharing experiences and partnering with complementary players to provide carriers with the best solutions for their specific markets.”

About CCA

CCA is the nation’s leading association for competitive wireless providers and stakeholders across the United States. The licensed service area of CCA’s nearly 100 carrier members covers 95 percent of the nation. Visit www.ccamobile.org.

About Intersec

Intersec designs innovative software enabling operators to leverage their network Big Data. Our disruptive technology crunches and consolidates huge amounts of data coming from heterogeneous network equipment and IT, and turns them into actionable insights in real-time.
